At New York, yesterday, money on call was easy at 41/206 per cent.; last loan at 5: closed at 5.

Prime mercantile paper, 6@9 per cent. Sterling exchange was dull and higher, with actual business in bankers' bills at \$189@4.89% for demand and \$4.87%@4.87% for txty days; posted rates, \$4.88@4.89 and \$4.891/2 (4.90%: commercial bills, \$4.86%.

Silver certificates, 67@671/2c; bar silver, 66%: Mexican dollars, 52%c. At London bar silver was 30 9-16d per ounce.

Total sales of stocks were 157,720 shares, including American Sugar, 40,500; Atchison, 3,000; Burlington, 5,100; Chicago Gas, 11,500; Luisville & Nashville, 3,700; Manhattan Consolidated, 3,800; Reading, 7,900; Rock Island, 3,700; St. Paul, 18,000; United States

Leather preferred, 16,600. The share speculation yesterday on Wall street was irregular at the opening and the volume of business was only moderate. An easier tendency soon became evident and general fractional losses were scored. Before the expiration of the first hour, however, the selling pressure was exhausted and a well-defined covering movement ensued under the leadership of the industrials, which carried prices ug a material extent. Later in the day the anthracite coal stocks. and grangers were strong features. The last mentioned goup was helped by reports of a decidedly increased movement of corn. The stimulating influence on the coal stocks was an inaccurate rumor of an impending concerted advance in anthracite coal prices at tide-water. The cold snap has undoubtediy sharpened the consumptive demand for coal, but this will only exert a temporary influence on the wholesale trade, except a halt is called in the heavy mining operations. Sugar certificates sold up 1/4 per cent, to 103%, partly on the belief expressed that the German sugar-bounty bill in the Reichstag will not pass and partly on a pretty confident sentiment by the traders that the old dividend rates will be maintained this year. The preferred stock rose 1% per cent. The denial by President Hoyt, of the United States Leather Company, of the rumors that the management was endeavoring to float a \$2,000,000 loan was followed by an advance in the preferred stock, due mainly to covering purchases. The general market was buoyed up by the conviction that the delay incidental to the programme for floating the new governnent loan will not result in any serious financial disturbance. The fact that only \$1,25,000 in gold was engaged for shipment to-day also had a favorable influence on the market. London was a purchaser of St. Paul and a few other stocks to a moderate extent. The principal advances, other than those mentioned, were in Lake Shore, 24; Chicago Gas, 2%; Manhattan, Delaware & Hudson, Illinois Central and New Jersey Central, 1%; Lake Erie & Western preferred, 2; Lackawanna, 15; Tennessee Coal, 11/2; Louisville & Nashville and Canada Southern, 1%, and the grangers, %@1% per cent. Late in the day realizing sales caused a general reactionary movement, in which Manhattan and Leather preferred were the chief sufferers, with losses of about a point. In the less active shares a recession of 3 per cent. was made by Metropolitan trac-tion. In the closing dealings prices again

gained sharply. The sales aggregated \$1,-Government bonds ruled strong and higher. The new fours coupon and new fives coupon sold up 14 and 1 per cent., respectively, on purchases of \$10,000 each. In State securities \$28,000 Virginia centuries changed hands at a slight fluctuation in price. The following table, prepared by James E. Berry, Room 16, Board of Trade, shows the

Mount Rosa 18 BRADSTREET'S STOCK REVIEW. Bradstreet's weekly review of the New York stock market says: Speculative interests were unquestionably somewhat dismayed by the unexpected launching of the \$100,000,000 government bond issue as a popular subscription. The principal element of disturbance was the idea that the period of thirty days allowed for the closing of the subscription would afford opportunity for further depletion of the gold reserve and for the development of other unsettling factors. It was observed that while the public was taking no interest in speculation, and that the hope of booming tendency which a rate of the bonds to the Morgan syndicate might have created had been defeated, there was no liquidation, and the leading interests in the market, while inclined to stand tors. It was observed that while the public ests in the market, while inclined to stand aside, had no disposition to work on the short side. Further consideration of the matter led also to several other imperiant conclusions. In the first place it is the opinion of the street that the Morgan bond syndicate will not disband, but will put in a bid, with the chances in favor of its obtaining the whole, or, at any rate, all but a small portion of the bond issue. The fact that the public, even-if it wants the bonds, cannot obtain gold with which to pay for them is a limitation on popular subscrip-tions, while the banks which have the gold

are more likely to act in connection with the syndicate than to take the alternative of paying a high price or of having their ingold from the treasury have not been excessive, amounting in all to \$2,000,000 or more, for the week, while there is evidence that the treasury has armed itself against such depletion of its reserve by an arrangement with certain New York banks to supply it with gold during the thirty days of suspense. The money market, though firm, has also calmed down considerably and though gold exports for the week amounted to \$3,-250,000 (including \$1,500,000 taken from the treasury two weeks ago and held in the bankers vaults), the exchange market is not so active or strong as to indicate a heavy outflow. These factors, therefore, asserted themselves, and caused a marked hardening of values throughout the rest of the week. At the same time the market has been very narrow, and covering of short contracts furnished the bulk of the buying. The foreign markets have been influenced almost entirely by the Transvaal complications and the Venezuelan question has been relegated to the background. This, with the less acute feeling about the latter subject, has checked foreign selling of American securities and even induced a certain amount of professional short covering for

LOCAL GRAIN AND PRODUCE.

Trade in Some Lines Disappointing and Fluctuations in Values Few.

Columbus

Grocers, leather dealers, iron merchants and druggists are experiencing a good business for January, while dry-goods houses and boot and shoe men report trade quiet. The same story comes from Commission row. While vegetables of all kinds, apples and bananas are in good supply, they sell so low that a good deal more bulk must be handled than last year to reach like financial results. Oranges, one of the best sellers at this season, are in light supply, and but little good fruit offered. Receipts of eggs are still liberal and prices easy, and the arrivals of poultry are on the increase, but prices are unchanged. The hide market continues active and prices firm at recent advances. Staple groceries, sugars excepted, are in firm position.

The local grain market was more active yesterday. Receipts are larger and more interest is shown in cereals. Track bids yesterday ruled as follows: Wheat-No. 2 red, 641/20; No. 3 red, 611/2@

Corn-No. 1 white, 26%c; No. 2 white, 26%c; No. 3 white, 26%c; No. 2 white mixed, 26c; No. 3 white mixed, 26c; No. 2 yellow, 261/4c; No. 3 yellow, 261/4c; No. 2 mixed, 251/2c; No. 3 mixed, 251/2c; ear corn, 24c. ALL MARKETS LOWER

PACIFIC CHARACTER OF THE FOR-EIGN NEWS AFFECTS PRICES.

Chicago Wheat Weak and 5-Sc Lower, with Declines in Corn, Oats and Provisions.

CHICAGO, Jan. 10 .- The more pacific character of European news had its effect on all the markets to-day, and relapsed into the condition of duliness prevailing before the war scare. Wheat closed %c lower than yesterday. Corn and oats lost 1/4c and 1/4c, respectively, and provisions were quiet, at 21/2071/20 off compared with last night.

Consols were higher, giving evidence that the British public at least did not anticipate any very serious trouble, as the war talk has been the principal prop of the market. This had a depressing effect, and there was liberal liquidation and short selung. The Northwestern and primary receipts were also generous, and especially the Northwestern deliveries, which are more than double what they were a week ago. There were indications, too, of liberal gold shipments. On the realizing and the short sell-ing which followed the market went off %c show an increase of 3,483 bales domestic ments. On the realizing and the short sellfrom last night's close. But there was a good demand for cash wheat from country millers, and for export, which caused some reaction. The market was also strengthened some by a London dispatch, which said that it was estimated there that the recent bad weather in Argentina had reduced the export surplus from that country fully 8,000,000 bushels, and that no more would be shipped this year than last. May sold early at 59%c, sold to 59%@59%c, split, up to 59%c, down to 591/2c, and at noon was 59%c. The market was strengthened some during the last hour by some sensational war news, which started local shorts to covering, and May sold at 59%c, but eased off a fraction and closed steady at 59%@59%c.

Corn was slow. The short interest has covered so freely during the past few days that there was not much demand from that

interest. With some indications of larger interior deliveries, there was more disposition to sell. May sold early at 29c, weakened to 28%c and rallied to 28%c, closing at that figure. Oats were quiet and easy, being governed somewhat by the course of corn and the tamer feeling in wheat. May sold from 1956 @19%c, split, to 19%@19%c, split, closing steady about 19%c. Provisions started very weak, on the un

expectedly large hog receipts. A good demand sprung up at the decline, when the wheat market opened, and more than half of the first loss was recovered before the end. May pork, which closed yesterday at \$9.92½, rested at \$9.82½, or 10c decline for the day. May lard left off at a decline of .05c, and May ribs at a reduction of .071/2c.

Estimates for Saturday—Wheat, 53 cars;

BOSTON, Jan. 10 .- The Boston Commercial Bulletin will say to-morrow of the wool market: The excitement is over and the market is dull. Were it not for two large sales, the record for the week would be small, indeed. The Kerryville wools, fall Texas, were marketed on a basis of 28629c, clean, to the extent of half a million bounds. The other large sale was a line of foreign cross-bred wools at current rates.
The fall Texas wools will be used as a substitute for Cape of Good Hope wools, which cost 35c clean. Though there has been no general inquiry, the market is steady. The sales of the week are 8,741,000 pounds domestic and 6,654,000 pounds foreign, against 7,565,000 pounds domestic and 2,551,000 pounds foreign last week, and 2,808,000 pounds domestic and 1,100,000 pounds foreign for the same week last year. The sales to date show an in-crease of 4,899,000 pounds domestic and 1,-678,800 pounds foreign from the sales to the

CHICAGO, Jan. 10.-Cattle-Trade was

slow to-day and yesterday. Common to the

best beeves were taken at an extreme range

of \$3.25@5, with sales largely at \$3.85@4.60.
Prices were largely 10c lower than yesterday. As dressed beef concerns were taking most of the cattle that could be used as good feeders, not many were bought to ship back to the country, and best feeders advanced to \$3.80. Cows and bulls also shared in the advance, and there was an active demand, cows and heifers selling largely at \$2,10@3,25. Calves arrived more freely, but good to choice lots were firm at \$5.75@6.75 per 100 lbs. Texas cattle brisk at \$3.10@4.35. Hogs-The advance was checked to-day, and prices broke 5c, trading being slower than on previous days of the week. Sales ranged at \$3.35@3.85 for common to prime tiroves, with sales largely at \$3.75@3.80. Butchers continued to discriminate against big 350 to 450-lb hogs, but all desirable lots found quick sales, and packers were of the opinion that hogs purchased below \$4 will bring in fair profits in the long run. Sheep and Lambs-Despite the liberal receipts this week, the excellent demand for sheep and lambs from local dressed meat sheep and lambs from local dressed meat concerns caused a further rise of 15@25c. Native sheep soid freely at \$2@2.75 for poor to fair up to \$3.50@3.75 for good to extra. Yearlings found buyers at \$3.60@4.05. Sales included a good many fed Western sheep, at \$3.30@3.75. Lambs showed an especial animation, at \$3,50@5.

RETARDED

WEEKLY REVIEW OF TRADE BY DUN & CO. AND BRADSTREET'S.

Uncertainty of Financial Legislation and Disturbed Political Conditions Are Adverse Factors.

NEW YORK, Jan. 10 .- R. G. Dun & Co.'s weekly review of trade, to be issued to-morrow, will say: The new year begins with such uncertainty that business is somewhat retarded. The proposed sale of bonds offers ground for confidence in the future, but no one is able to determine what its earliest effects may be in the money mar-

in the foreign demand. Wheat is about 1c higher and corn the same without distinct reason in either case, for the government report, tardily conforming to commercial estimates of some months ago, did not command great confidence. Wheat receipts at Western points were almost double last year's, 2,505,702 bushels, against 1,305,704 bushels last year, but Atlantic exports were a little larger than last year, flour included, 2,337,936 bushels, against 2,010,756 bushels a year ago. Corn receipts are about a quarter larger than last year, while Atlantic exports are about four times as large. The industrial situation has not material-

ly changed. There is much hesitation in

the iron business with some advance in Bes-

semer pig, because of the expectation that Connellsville coke and lake ore will both be dearer, and yet finished products of iron and steel are on the whole quoted a little lower, and the Nail Association is still in session to determine whether it will abandon the effort to maintain a fixed price. That branch of business is extremely slow, nothing is doing in rails and while there is a rather better demand for structural works, angles are quoted a shade lower. Everything turns on the contracts for ore, which are still unsettled, but the great excess in production of pig iron over the present demand is no longer denied and it is expected that quite a number of the furnaces will presently discontinue production. Lower prices for Alabama iron renew competition with Eastern furnaces. Sales of wool are large, 6,699,300 pounds for the week, against 5,236,715 pounds last year, although a large part of the purchases is of a speculative character, based on belief that prices may be advanced if the new tariff bill goes into effect. The opening of woolen goods shows a further tendency toward lower prices, in spite of the prevalent belief that higher prices would be re-alized before long if the revenue bill which passed the House should become a law. The cotton mills are generally running, though not all with full force, and some are piling up goods without regard to the immediate demand, which is comparatively slack, as they apparently believe that the short sup-ply of cotton this year will insure them profits in the end, as it has during the past half year. Nevertheless goods have decidedly weakened in price, quite a number of changes having been recorded during the

the United States, against 420 last year, and fifty-three in Canada, against fifty-four last Bradstreet's Stock Review. NEW YORK, Jan. 10.-Bradstreet's tomorrow will say: General trade has not improved appreciably. Some wholesale houses are sending out travelers, while others have not completed taking account of stock. Mild weather at Western points has interfered with business in some instances and the week continues to present characteristics of a between seasons period. The impression is general that uncertainty as to financial action by Congress and disturbing political conditions have an unfavorable influence in prospect for new enterprises. Mercantile collections East, West and Northwest are complained of, but at the South the comparative ease with which they are made Station.

BELTING, EMERY WHEELS and MILL SUPPLIES.

Illinois street, 1 square south Union Station. forms a conspicuous exception. Demand for funds at various Western centers is the most active for a year. Stocks of wholesalers at many of the larger interior distributing points are low. First advices of alesmen on the road are of moderate demand for goods, improvement showing it-self first in dry goods, shoes and cloth-

Failures for the week have been 431 in

Exports of wheat (flour included as wheat) from both coasts of the United States this week amount to 3,471,000 bushels, as compared with 3,965,000 bushels last week, 2,587,-000 bushels in the week one year ago, 2,409,000 two years ago and 3,308,000 in the corresponding week in 1893. There are 446 business failures in the United States this week, an exceptionally total. Last week the aggregate was 403; in the week one year ago it was 405, and in the corresponding week of 1894, just after the panic, it was 484, while in the like week of 1893, five months prior to the financial disturbances that year, 301.
